Notes:																			
1. Where calls are merged, the number represents a total of the various modes.																			
2. Quantities are in tons, except where specifically noted.																			
3. Sources:																			
Recycling Statistics, UCSB by Mary Ann Hopkins																			
UCSB Hazardous Waste (Chemical Waste Program Volumes) by Bruce Carter																			
4. UCSB Hazardous Waste (EPA) statistics are compiled every two years.																			
5. UCSB Hazardous Waste is NOT included in the Recycled weights at this time, until it can be clarified where the "merged cell data" belongs.
