May 10, 2006 SWT meeting notes

Attendees:
Perrin Pellegrin
Rich Kildare
Mo Lovegreen
Katie Maynard
Scott Mackenzie
Shari Hammond

CCN Recommendation:
- Recommendation was sent to the CPC and will be included in the CPC packet for
  the May 30 meeting.
- Submittal to CPC consisted of the recommendation, background information, and
  Bren Master’s project brief. Jim Dewey and Perrin Pellegrin are working on a cost
  proposal to add to the packet.
- CPC will hear the presentation from Bren Students. Dewey will be at the meeting
  to answer any questions. During the June CPC meeting the committee will vote
  on the recommendation.

Conference:
- The conference coordinators will make a big push the remainder of the week to
  get more registrants. Currently we have 269 people registered.
- There are now 12 vendors and 5-6 other vendors have verbally committed but
  have not sent in their checks.
- Campus tours are filling up at a rapid rate.
- G. Lewis will make a push to get more DCS folks to attend.
- UCSD is interested in hosting the next conference in conjunction with USD,
  SDSU and the local community college.
- The Gene Lucas letter went out this week. Ernst said he would be at the panel
  discussion on “Bridging the gap…”
- Web updates will come out next week.

Plan
- Still missing a few templates - Trans, energy, water. Mo Lovegreen said she
  would send out the energy and water templates next week once she has all the
  finalized information.
- Scott Mackenzie wanted section dividers to the plan. Shari Hammond stated that
  is normally how they do plans.
- The main focus of the plan is what we can implement right away. Short term
  goals are most important now. Action items/barriers/metrics all need to be
  associated with each goal. Some templates do not have this.
- Student Affairs - Perrin has been in contact with Gary Jurich and Bill Shelor.
  They are getting funding for PV and will be turning in a template.
- Scott Mackenzie brought up doing outreach to new students.
- The plan will have an appendix.
- Scott Mackenzie brought up his idea about not just having an Office of
  Sustainability but also have Chancellor Committee, etc. Shari Hammond
  mentioned that this model was similar to the DRC model.
